

- Project:** Diesel Power Project D5
- Capacity:** 54 MW diesel power plants and 5.4 MW diesel-gas power plants  
10 x 1.5 MW, 14 x 2.8 MW, 2 x 2.7 MW (Dual Fuel)
- Location:** PLN Perusahaan Listrik Negara, Indonesia  
Gorontalo, North Sulawesi, Indonesia
- Time :** 1998 to 1999
- Client:** SIEMENS Erlangen
- Services:** Site management and supervision on civil works at Gorontalo
- Details :** OLP was responsible of the site management in order to avoid an imminent delay of the civil works at Gorontalo diesel power station of about 2 months and to recover the delay already occurred of about 6 weeks. OLP ensured the quality of civil works despite increased working speed and speed up the performance of the local civil contractor in an extremely short time so that the contractual date could be achieved
